

Embassy of the Republic of Uganda Copenhagen-Denmark

ISSUANCE OF NEW E-PASSPORTS

Wednesday 3rd April 2019

The new e-Passport will be presented in the following colours: Slay Blue (Ordinary Passport), Green (Service Passport) and Red (Diplomatic Passport)

The Uganda Embassy Copenhagen, wishes to inform the Ugandan diaspora in its areas of accreditation that the new passports (**A series**) came into effect on Tuesday 18th December 2018 and will be used alongside the old ordinary passports (**B series**) which will be phased out on 31st January 2021.

All passports will be printed in Kampala by the Directorate of Citizenship and Immigration until new machinery to print the new passports is installed in some Missions (Embassies). The Uganda Embassy Copenhagen is currently not in position to collect passport application forms. You will be advised when this will be possible.

Applicants may therefore, at their own expense, send their applications to the Passport Control Office, Directorate of Citizenship and Immigration Control, Kampala for processing. However, they need to obtain a forwarding letter from the Embassy.

The Embassy wish to regret for any inconvenience caused as the process has taken long period of time.
